THE BRITISH COLUMBIAN.

NEW WESTMINSTER, SATURDAY, JUNE 13, 1868.

PRICE 6d. or 12 cts.

The British Columbian.
SATURDAY, JUNE 13, 1868.

JACOBSON REMARKS.

Our Canadian files are to the 30th April. Up to the 24th of April the authorities were unwilling in their efforts to accumulate evidence in the McGee assassination case; and on that day the evidence against James Whalen, as the actual assassin, had attained such a degree of completeness as fully to satisfy the Crown officers, who accordingly discontinued their investigations in that direction, although every effort was still being made with a view to bring to light and, if possible, to justice, the organized band of Fenians whose instrument Whalen was. The efforts in this direction were understood to have met with a degree of success. Buckley and Doyle had both been fully committed on the charge of being accessories before the fact. It appeared to be the general feeling that Whalen and his accomplices should be brought to trial as speedily as possible, and that the Lieut. Governor of Ontario should issue a special commission for that purpose. The Toronto Globe, in a leading article on "The Situation," in which a somewhat gloomy picture of the present attitude of parties and general affairs of the Dominion is drawn, says respecting the westward extension, "The present position of the North-West is very far from satisfactory. The Imperial authorities, for some reason, are raising objections to the completion of the bargain by which that great territory is to be transferred to the Dominion. The consequence is that another year is being wasted as far as the opening up of the territory is concerned. We are to be deprived for still another year of that outlet for our population, and the people of the North-West are to be left for another year at the mercy of the Hudson Bay agents. How much longer Imperial caution will keep matters in this unsatisfactory shape we know not. We hope it will not be for any considerable length of time—as the interests of the Empire of the Territory and of the Dominion are all suffering from the delay. The danger—to far as there may be danger—that this great territory may slip from our grasp and from the grasp of the Empire itself, must be augmented by every year's neglect and delay. Whether the strange course pursued by the Imperial authorities is due solely to the timidity of the Colonial Minister, or to a want of confidence in the Government of the Dominion, it is disastrous to our most important interests." An accident of a rather serious nature occurred at Montreal, on the 24th April, killing one man and badly injuring several others. It appears that two Americans, being desirous of exhibiting the blasting capacity of a new explosive material, a compound of chlorate of potash and tannin, had a hole drilled in a rock, at the Beauvoir, and proceeded to afford a number of contractors ocular demonstration. A cartridge containing the explosive material was placed in the hole, but while being rammed down it exploded, blowing the head of Dumphy, a laborer, clean off his body. The left hand of Dr. Erhardt, one of the experimenters, was also blown off, while George Bowes, jr., corporation contractor, was dangerously wounded in the head. Several others were seriously injured. The premature explosion is attributed to the use of an iron crowbar in ramming down the cartridge; copper or wood should have been used. On the 29th Robert Notman, connected with the abortion case which recently occurred at Montreal, was sentenced to ten years in the Penitentiary. In passing sentence, Judge Drummond said it was time to crush out the mor-

al venom that was beginning to corrupt the community, and the Court could not pass a lenient sentence. The nomination for the West Riding of Montreal, rendered vacant by the death of Mr. McGee, was to come off on the 30th April. Mr. M. P. Ryan was the only candidate spoken of. The Rev. Morley Panshon, President of the Canadian Wesleyan Conference, and who had just arrived from England, was attracting considerable attention. He had preached to large congregations at Montreal and at Ottawa. The mining interests of the new Dominion are deservedly attracting much attention; so much so, indeed, that the following verdict has been pronounced by an English paper: "That the Dominion of Canada is one of the richest mineral countries in the world is universally acknowledged." In Nova Scotia, in New Brunswick, in the Chaudiere and other streams of Quebec, at Madoc and other points in Ontario, along the north shore of Lake Superior, and, to anticipate events a little, throughout the Northern territory down the Western slope to the Pacific, what is it all but a succession of deposits in gold, and silver, and copper, and iron, and plumbago, and coal, whose richness is beyond all peradventure. It is only a few short years since the fact became known; and a little organized effort and combined skill are alone necessary in order to enable the Dominion to reap untold millions from the hoarded wealth which Mother Earth has locked up in her bosom. Already has about three million dollars worth of gold been taken from the mines in the Eastern Provinces, although their discovery is but of yesterday, and the appliances for the most part of the crude kind. The Ontario papers record the death of a venerable squaw, belonging to the Ottawa, She died on the 13th of April, at the residence of the Rev. Edward Daemes, Bay Settlement, at the advanced age of 123 years! She had outlived three husbands. Her first she had a son, who is still living, and is 97 years of age. Her youngest son, by the third husband, is 82 years of age, and attended his mother's funeral. It is said that the necessity that is felt for a leader of the Reform party in the House of Commons, will probably result in the return to active political life of the hon. Geo. Brown, the most pure and gifted of all Canada's statesmen.

ST-1860-X.

A great French Physician says: "More than half the disease in the world comes from neglect to fortify the system against changes of climate, weather and food. The great secret of health is to keep the condition of the Stomach and Blood regular and uniform, so that changes from Heat to Cold, from Dry to Damp, etc., cannot upset the machinery of the Body, and breed disease. Now, it is a fact, positive and well known, that there is no such bulwark and assistant for the Stomach as

PLANTATION BITTERS.

This splendid Tonic is now used by all classes of people for every symptom of a "Stomach out of order." The secret of it is this: Plantation Bitters are certain to correct the juices of the Stomach, set all its machinery at work, and enable it to resist and throw off the approaching danger. The tendency of the operations of Nature is always towards health; all she needs is a little assistance at the proper time. How much more reasonable and sensible it is to help her along with a gentle yet powerful Tonic, than to deluge and weaken and defeat her curative processes with poisonous drugs and fiery mixtures which only stupefy and plant the seeds of disease and death.

Important Certificates.

"I owe much to you, for I verily believe the Plantation Bitters have saved my life."
Rev. W. H. WAGGONER, Madrid, N. Y."

"I have been a great sufferer from Dyspepsia, and had to abandon preaching."
Rev. J. S. CANNON, Rochester, N. Y."

"I have given the Plantation Bitters to hundreds of our disabled soldiers with the most astonishing effect."
O. W. D. ANDREWS, Superintendent Soldiers' Home, Cincinnati, O."

The Plantation Bitters make the weak strong, the languid brilliant, and are exhausted Nature's great restorer.

The public may rest assured that in no case will the perfectly pure standard of the PLANTATION BITTERS be departed from.

Every bottle bears the fac-simile of our signature on a steel plate, engraving, or it cannot be genuine.

Any person pretending to sell PLANTATION BITTERS in bulk or by the gallon, is a swindler and impostor. Beware of refilled bottles. See that our Private Stamp is UNIMPEACHED over every cork.

Sold by all Druggists, Grocers and Dealers throughout the world.

FEARS.

LYON'S MAGNETIC INSECT POWDER is sure and certain death to everything of the insect species—Fleas, Roaches, Mosquitoes, Ants, Beetles.

IT KILLS INSTANTLY.

What is peculiarly surprising in regard to this article is that notwithstanding its instant death to insects, it is perfectly harmless to mankind and domestic animals. It can be inhaled or eaten with impunity. It leaves the testimony of eminent disinterested chemists that it is

FREE FROM POISON.

No article has ever given such positive satisfaction in its use.

Its reputation is well known. It is easily and readily used. Directions accompany each package. Beware of counterfeits.

The genuine has the signature of E. LYON, and the private stamp of DEANES BARNES & Co. Anything else of the kind is an imitation or counterfeit. Any druggist will procure the genuine if you insist you will have no other.

Sold by all druggists and dealers on Pacific Coast.

MEXICAN MUSTANG LINIMENT.

It is an admitted fact that the Mexican Mustang Liniment performs more cures in shorter time, on man and beast, than any article ever discovered.

No compound has ever been invented so useful and efficacious in curing

RHEUMATISM, STIFF & WEAK JOINTS, BRUISES, SWELLINGS, SORE THROAT, TRACHEA, HOARSENESS, RASH ACNE, FRESH CUTS ON WORKING, FOR HORSES.

Or any other complaints requiring external application.

It is an indispensable and valuable remedy in all cases of Sprain, Spilt, Ring-bone, Wind-galls, Bruises, Strains, &c.

It should be kept in every house, camp and stable. Accidents will occur. Promptness is efficacy.

All genuine is wrapped in steel plate engravings, bearing the signature of D. W. Westbrooke, Chemist, and the Private U. S. Stamp of DEANES BARNES & Co. over the top.

An effort has been made to counterfeit it with a cheap stone plate label. Look closely!

Sold by all Druggists and Stores in every town and mining camp on the Pacific Coast.

TO LEASE.

TWO STORY Dwelling-house, hard-finished throughout, comprising a drawing-room, bed-room, kitchen, pantry, wash-room and a large hall fifteen by twenty feet on the ground-floor, and four large bed-rooms, with closets, &c., and a hall fifteen by twenty-three feet on the second floor, together with out-houses, &c., complete. Also a large and well kept garden, containing over 100 fruit trees, mostly bearing, and several hundred currant bushes, &c., &c. Also 12 acres of enclosed land, one-half of which is in Timothy. The above property is within five minutes' walk of the centre of the City, and may be had for a term of years upon the most liberal terms.

Important to Business Men in Victoria, California, Portland, and Places on the Sound!

This Journal is the oldest newspaper published in British Columbia; it is read by every business man from New Westminster to the Rocky Mountains, and is valued as an advertising medium for this Colony. David Spencer, in Victoria, and L. P. Fisher, in San Francisco, are our authorized Agents.

This paper may be read gratuitously in London at the Central Establishment of "Hollway's Press and Overseas," 24, Strand, where advertisements and subscriptions for the same are received.

NEW ADVERTISEMENTS THIS DAY

James Cunningham.

Lost.

Overland Route to Economy—A. B. Gray.

The British Columbian.

SATURDAY, JUNE 13, 1868.

ROADS AND ROAD-MAKERS.

The two newspapers published in, and, we verily believe, pretty generally representing the popular sentiment of, the interior, are very outspoken about the disgraceful negligence exhibited on the part of the Government towards the great avenue of communication with the centres of population and production. Altogether apart from mere local issues and political "bearings", one is constrained to ask, of what earthly use is our Chief Commissioner? During the past four years, what actual return has the Colony received, what value has it to show to-day, for the fifty or sixty thousand dollars this luxurious, kid-gloved official and his department have cost the tax-payers of British Columbia? Nay, what has it to show for the one hundred and fifty thousand dollars and upwards expended by irresponsible subordinates upon the Hope-Kootenay trail, the Big Bend trail, and the Bridge River trail? It can hardly be said to have even the trails to show for that princely piece of expenditure; for we are credibly informed that they cannot be detected, much less followed, even by the eye of the most expert bushranger! What, we ask, has the country to show for close upon a quarter of a million of dollars squandered in and through the Chief Commissioner's department, during the period he has had the misdirection of what ought to be the most important department of the State? We would not wish to do the Chief Commissioner injustice; there is something to show—a real work, of which that distinguished official enjoys the reputation of being the veritable author, although some persons are wicked enough to express doubt on that point. We allude to the printed Report on the Overland Road, promulgated during last Session of the Legislature. The merits of that report have been questioned by some, who appear to think that, instead of carrying the great continental road over the author's own bridge, it ought to be mercilessly shunted off at "Waddington's Folly"! Such people, we strongly suspect, however, are only indulging a morbid propensity for practical joking. By whatever pass it crosses the Rocky Mountains, down the valley of the Fraser the overland road will assuredly come; although we must confess that we see considerable engineering difficulties in the way of extending the road over to Victoria; but we suppose this must be set down to obtuseness on our part, inasmuch as we see Mr. A. G. Dallas is out in a London paper advocating a railroad "from Canada to Victoria"! Such has been the wonderful march of science, such the development of engineering skill, that it is just possible Mr. Dallas may be right. Why should not the skill which has run railways under the Thames run one across the Gulf of Georgia? It's only a question of keeping the wind from blowing; and who will venture to say that science can't accomplish that? Pshaw! Waddington will stop the hole with his hat! But, to return to our text. Roads and Road-makers, who are our road-makers? Not the Chief Commissioner, certainly. In respect of what services, then, does he continue to draw his enormous salary from the impoverished treasury of this official-ridden Colony? Why has he been playing cricket at New Westminster for the past three years, with a fair prospect of continuing the game at Victoria for the next three, varied, it may

be, by an occasional airing in his carriage; and this, too, when the trade of the great interior, the food and raiment of the hardy miners, has been made to pay enormous tolls for the privilege of being left to struggle and flounder up to the very hubs in mud? It is quite possible that the Chief Commissioner may be more comfortable, more at home, in Victoria than he was in New Westminster. But are the comfort and convenience and luxury of officials to constitute the supreme consideration of our governmental policy? Are the men who alone produce revenue, who alone make the colony, from whose pockets, from the sweat of whose brow, in fact, the salaries of officials come, are they entitled to no share of consideration? Are they to be treated like responsible, intelligent human beings; or, like the Southern slave, are they to be viewed and valued only in the light of their revenue-producing capacity? Not in a cynical, but in an enquiring, a sober, perhaps a sad spirit, do we put the question. While upon this subject, may we venture to enquire of His Excellency the Governor what has become of the mammoth petition sent to him during the last Session of the Legislature, praying that the Colony might be spared the further expense of maintaining a useless and extravagant Chief Commissioner? We are told that the petition, several fathoms in length, bore the signatures of nearly three thousand colonists, including the most substantial men of all classes and occupations in the country. Why was it not, like other petitions, sent down to the Council? What has become of it? Surely Governor Seymour would not be guilty of stifling or disregarding the voice of the people, especially when they speak with so much unanimity, and that, too, respecting a subject upon which they clearly have a right to speak.

AGRICULTURAL.

A meeting of the Board of Management of the New Westminster District Agricultural Society was held, pursuant to notice, in the Hyack Hall, on Thursday afternoon. After the reading of the minutes, the following resolution was unanimously passed, and ordered to be recorded on the minutes of the Society:

Resolved That we hereby express deep regret at the loss sustained since last meeting, in the death of our able and energetic Corresponding Secretary, William Eppes Cormack; and we desire to record our sense of his valuable services in the formation of this and kindred organizations, as well as in the more general interests of agriculture in the colony.

The following resolutions were passed:— That the Exhibition be held during the first week in October.

That the time for the payment of fees of membership be extended to the 1st August.

That the Recording Secretary, Mr. G. C. Clarkson, act as Corresponding Secretary during the balance of the year.

That the Secretary collect all subscriptions as soon as possible, so that the Board may be in a position to prepare the list of Prizes for the approaching Exhibition.

That the President, the Secretary and Mr. Brighthouse be a Committee to prepare a list of articles for exhibition, and report to the adjourned meeting to be held at 8 o'clock on Monday evening, the 22d inst.

DROWNED.—A man named Timothy Cogley, who was for several years cook at Messrs. Moody & Co.'s mills, was drowned at Brighton yesterday morning, about 800 yards from shore. There is little doubt that it was a case of *fibula de se*. The body was not recovered. Poor Tim! He was an excellent cook.

THE TELEGRAPH STEAMER MUMFORD was towed over to Victoria on Wednesday, by the Enterprise.

ADDRESS

TO THE

NERVOUS AND DEBILITATED,

WHOM

SUFFERINGS HAVE BEEN PRO-

TRACTED,

AND WHOSE CASES

REQUIRE PROMPT TREATMENT
TO RENDER EXISTENCE
DESIRABLE.

If you are suffering have suffered, what effect does it produce upon your general health?

Do you feel weak, debilitated, easily tired?

Does a little extra exertion produce palpitation of the heart?

Does your liver, urinary organs, or your kidneys, frequently get out of order?

Is your urine sometimes thick, milky or sticky, or is itropy on settling?

Or does a thick scum rise to the top?

Or is a sediment at the bottom after it has stood awhile?

Do you have spells of short breathing or dyspnoea?

Are your bowels constipated?

Do you have spells of fainting or rushes of blood to the head?

Is your memory impaired?

Is your mind constantly dwelling on this subject?

Do you feel dull, listless, mooping, tired of company, or of life?

Do you wish to be left alone, to get away from every body?

Does any little thing make you start or jump?

Is your sleep broken or restless?

Is the lustre of your eye as brilliant?

The bloom on your cheek as bright?

Do you enjoy society as well?

Do you pursue your business with the same energy?

Are your spirits dull and flagging, given to fits of melancholy? If so, do not lay it to your liver or dyspepsia.

Have you restless nights? Your back weak, your knees weak, and have but little appetite and you attribute this to dyspepsia or liver complaint?

NOW, READER,

DISEASES BADLY CUR- ED, AND EXCESSES.

Are capable of producing a weakness of the generative organs. The organs of generation when in perfect health, make the man. But you ever think that those bold, defiant, energetic, persevering, successful business men are always those whose generative organs are in perfect health? You never hear such men complain of being indolent, of nervousness, of palpitation of the heart. They are never afraid they cannot succeed in business; they do not become sad and discouraged; they are always polite and pleasant in the company of ladies, and look you and them right in the face—none of your downcast looks, or any other meanings about them. I do not mean those who keep the organs inflamed by running into excess. These will not only ruin their constitutions, but also those they do business with or for.

How many men, from badly-cured diseases and excesses, have brought about that state of weakness in those organs that has reduced almost every other form of disease—idiotcy, insanity, paralysis, spinal affections, suicide, and almost every other disease which humanity is heir to, and the real cause of the trouble never suspected, and have doctored for all but the right one?

Diseases of this sort require a Diuretic.

HELMBOLD'S FLUID EXTRACT BUCHU IS THE GREAT DIURETIC, AND IS A CERTAIN CURE FOR

Diseases of the Bladder,

Kidneys,

Gravel,

Dr. J. C. Ayer & Co.,

Organic Weakness,

Female Complaints,

General Debility,

AND ALL DISEASES OF THE

URINARY ORGANS,

whether existing in male or female.

From whatever Cause originating, and no matter of how long standing.

If no treatment is submitted to, CONSUMPTION or INSANITY may ensue. Our flesh and blood are supported from these sources, and the health and happiness, and that of posterity, depends upon prompt use of a reliable remedy.

HELMBOLD'S EXTRACT BUCHU, ESTABLISHED UPWARDS OF 18 YEARS, PREPARED BY H. T. HELMBOLD,

DRUGGIST, 604, Broadway, New York, and 104 South Tenth St., Philadelphia, Pa.

Price \$1 25 per bottle, or Six for \$6 50. DELIVERED TO ANY ADDRESS.

SOLD BY ALL DRUGGISTS,
EVERYWHERE.

AYER'S MEDICINES.

The peculiar taint or infection which we call SCROFULA lurks in the constitutions of multitudes of men. It either produces or is produced by an enfeebled, vitiated state of the blood, wherein that fluid becomes incompetent to sustain the vital forces in their vigorous action, and leaves the system to fall into disorder and decay.

The scrofulous contamination is variously caused by mercurial disease, low living, disordered digestion from unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children." The diseases it originates take various names, according to the organs it attacks. In the lungs, Scrofula produces tubercles, and finally Consumption; in the glands, swellings which suppurate and become ulcerous sores; in the stomach and bowels, derangements which produce indigestion, dyspepsia, and liver complaints; on the skin, eruptive and cutaneous affections. These, all having the same origin, require the same remedy, viz., purification and invigoration of the blood. Purify the blood, and these dangerous distempers leave you. With feeble, foul, or corrupted blood, you cannot have health; with that "life of the flesh" healthy, you cannot have scrofulous disease.

Ayer's Sarsaparilla is compounded from the most efficient antidotes that medical science has discovered for this afflicting distemper, and for the cure of the disorders it entails. That it is far superior to any other remedy yet devised, is known by all who have given it a trial. That it does combine virtues truly extraordinary in their effect upon this class of complaints, is indisputably proven by the great multitude of publicly known and remarkable cures it has made of the following diseases: King's Evil, or Glandular Swellings, Tumors, Eruptions, Pimples, Blisters and Sores, Erysipelas, Rose or St. Anthony's Fire, Salt Rheum, Scald Head, Coughs from tuberculous deposits in the lungs, White Swellings, Debility, Dropsy, Neuralgia, Dyspepsia or Indigestion, Syphilis and Syphilitic Infections, Mercurial Diseases, Female Weaknesses, and, indeed, the whole series of complaints that arise from impurity of the blood. Minute reports of individual cures may be found in AYER'S AMERICAN ALMANAC, which is furnished to the druggists for gratuitous distribution, wherein may be learned the directions for its use, and some of the remarkable cures which it has made when all other remedies had failed to afford relief. Those cases are purposely taken from all sections of the country, in order that every reader may have access to some one who can speak to him of its benefits from personal experience. Scrofula depresses the vital energies, and thus leaves its victims more subject to disease and its fatal results than are healthy constitutions. Hence it tends to shorten, and does greatly shorten, the average duration of human life. The vast importance of these considerations has led us to spend years in perfecting a remedy which is adequate to its cure. This remedy now offer to the public under the name of AYER'S SARSAPARILLA, although it is composed of ingredients, some of which exceed the best of Sarsaparilla in alternative power. By its use you may protect yourself from the suffering and danger of these disorders. Purge out the foul corruptions that rot and fester in the blood, purge out the causes of disease, and vigorous health will follow. By its peculiar virtues this remedy stimulates the vital functions, and thus expels the distempers which lurk within the system or burst out on any part of it.

We know the public have been deceived by many compounds of Sarsaparilla, that promised much and did nothing; but they will neither be deceived nor disappointed in this. Its virtues have been proven by abundant trial, and there remains no question of its surpassing excellence for the cure of the afflicting diseases it is intended to reach. Although under the same name, it is a very different medicine from any other which has been before the people, and is far more effectual than any other which has ever been available to them.

AYER'S CHERRY PECTORAL

The World's Great Remedy for Coughs, Colds, Incipient Consumption, and for the relief of Consumptive patients in advanced stages of the disease.

This has been so long used and so universally known, that we need no more than assure the public that its quality is kept up to the best it ever has been, and that it may be relied on to do all it has ever done.

Prepared by Dr. J. C. Ayer & Co., Lowell, Mass.

Sold by all druggists every where.

MOORE & Co., Agents, Victoria, V. I. Sold by H. W. Smith and Dr. JONES, New Westminster, and by every dealer in the Colony.

INTERNATIONAL HOTEL, BOSTON BAR.

The Public are advised that this long and favorably known Hotel has again come into the hands of its original proprietor,

SATURDAY, JUNE 13, 1868.

HOWE AND HIS MISSION.

The anti-union howlings of Howe would appear to be little better than spitting against the wind. It was seen a few days ago how little came of his interview with the Duke of Buckingham. He fares no better at the hands of the more powerful London Press. The manifesto of Nova Scotia has been published, and has met with free and able criticism. The great apostle of disunion cuts but a sorry figure. He is plainly reminded that in the previous Assembly of Nova Scotia he himself proposed the union of the maritime provinces, that the proposition was discussed for two years, and approved by a two-thirds vote of both Houses, and that the union can, therefore, hardly be viewed in the light of a "surprise," suddenly springing upon that Province. In respect of other cardinal points also, Mr. Howe and his manifesto are placed in a very awkward attitude towards each other. The London Standard thus reviews the case of Nova Scotia as put by the delegates in their manifesto:—"In spite of the facts brought forward by the Nova Scotian delegates—facts which make a very bare figure by the side of their protests and complaints—we continue to believe in the wisdom and expediency of the Act of Confederation. It is preposterous to ask the British Parliament to reverse its steps merely for a forty days' trial of the new system. Nova Scotia must learn to take care of herself in the competition with her sister colonies, and to make the best of the bargain. Her complaint is one which relates substantially to the policy of the Local Legislature, and Great Britain cannot attempt to deal with it without doing injustice to other colonies."

"The greater part of the reasons assigned against the Act of Confederation are reasons which it is now too late for us to discuss. If the union is 'fraught with evil,' that will be the fault of Nova Scotia herself. That it is 'unjust' is yet too early to decide. That it is 'unsuccessful' is certainly not a point on which the Nova Scotians alone are entitled to be heard. The complaint that the union deprives the people of Nova Scotia of the rights of self-government is not true. One might suppose from such a statement that the Nova Scotians could do nothing for themselves without the Ottawa Parliament; but the Confederation Act creates a Local Nova Scotian Legislature, with very large powers, independent of, and in addition to the Central Legislature of the Dominion. The objection that certain things can only be done eight hundred miles away from the province was far stronger when the Nova Scotian Government was directly subject to the Colonial office. The other objections are simply a restatement of the main proposition, that Nova Scotia was better off with what her present delegates call an 'independent' Government than now, when she is a portion of the dominion of Canada." Altogether Mr. Howe would appear to have sadly lost his way; and it is truly lamentable to see a man of his calibre and possible usefulness, so misapplying his talents and misdirecting his energies. One is almost forced to the conclusion, in view of all the circumstances, that he belongs to that class of men who conceive that nothing is right or good unless they are at the head of it. We do not mean to say that Mr. Howe received that consideration and was accorded that position in the Confederation movement to which he had a just right to aspire. It has always been our impression that, by a little party jockeying, the two men who, of all others, should have been the recognized leaders in the movement, were adroitly hustled out of the ranks. We allude to Mr. Brown and Mr. Howe. The country cannot but feel the need that now exists for having these men at the helm, helping to steer the great Confederation ship. The country must deplore the fact that one of these very men is using every endeavor to blow it up with the torpedo of disunion.

ENGLISH SUMMARY.

We have English files to the 25th April. The intelligence of the assassination of McGee appears to have caused quite a sensation. Many of the papers contain lengthy obituary notices, for the most part highly eulogistic. The matter was noticed in both Houses of Parliament, where the talents of Mr. McGee, both as a literary man and a Statesman, were eulogized. The visit of the Prince and Princess of Wales to Ireland appears to have been altogether a successful and happy affair. The national ball given in honor of the Royal guests, in the Exhibition building, Dublin, is described as a most brilliant and successful effort. There were upwards of 4000 persons present. In a graphic account of it, given by the *Times*'s special, it is said, "It was an entertainment worthy of the highest occasion, and its magnificence and completeness were imperial. Dublin made a supreme effort to welcome her Royal visitors, and those who have seen the most celebrated demonstrations of the kind in recent times could remember nothing in any part of the world to excel in effect and luxurious preparation the offering of the citizens of the Irish capital to the Prince and Princess." Speaking of the accommodation in the banquet saloon, the same writer says, "The statement made by a gentleman—I breakfasted at the ball this morning at 5 o'clock; hot soup and plovers' eggs, bedad!—may be taken as an instance of real or imaginary luck; but certainly some 4000 people had their over-recurring wants amply provided for whenever they did not all require to be attended to at once." Everywhere the Royal Pair were received with real Irish enthusiasm. In one of the addresses England is slyly referred to as "the more favored portion of Her Majesty's dominions," and the prince is assured that it is the unanimous wish of Ireland that His Royal Highness should "acquire within her borders a permanent place of residence." May we not add that it is the unanimous wish not only of every friend of Ireland, but every friend of Great Britain, that Royalty, if not permanently present in Ireland, should at least give that portion of the United Kingdom a fair share of its presence. Unable any longer to endure in silence the misrepresentation of unscrupulous political opponents, Mr. Gladstone addressed to the *Times* the following letter:—

SIR,—Though reluctant to attempt any encroachment on your space with reference to personal matters, I feel that I have no alternative at a time when personal charges, however irrelevant, are employed as the means of injuring or impeding a great cause.

Within the last fortnight or thereabouts, the following statements, purporting to be of fact, have been assiduously circulated respecting me in different parts of the country:—

1. That when in Rome I made arrangements with the Pope to destroy the Church Establishment in Ireland, with some other like matters, being myself a Roman Catholic at heart.

2. That during and since the Government of Sir Robert Peel I have resisted and (till now) prevented the preferment of Dr. Wynter.

3. That I have publicly condemned all support of the clergy in the three kingdoms from Church or public funds.

4. That when at Balmoral I refused to attend Her Majesty at Crathie Church.

5. That I have received the thanks of the Pope for my proceedings respecting the Irish Church.

6. That I am a member of a High Church Ritualistic congregation.

Aware how, in times of public excitement, rumour grows and gathers through the combined action of eagerness, credulity, and levity, I will not bestow a single harsh word upon any of these statements. Neither will I advert to the cause to which some of them may be due, for I am determined to avoid as long as it may be possible, even on a great political controversy, and what I think a noble cause, with the elements of religious bigotry and hatred. But I will, in the first place, declare that these statements, one and all, are untrue, in letter and in spirit, from the beginning to the end; and, since it is impossible

for me to continue entangled, as I have recently been, in the searches and correspondences which such fictions entail, I venture to request all persons whatsoever who may be interested in the matter, if any like statements should hereafter come under their view, in the interest of truth to withhold their belief.

To more vague and general charges this is not the place to refer. I have the honour to be, Sir, your faithful servant,

W. E. GLADSTONE.

11, Carlton House Terrace, A. P. 24th.

SIGNS OF PROGRESS IN THE INTERIOR.

It is undoubtedly a good sign to find, as people do who are travelling up or down the country, in nearly every house from Williams Creek to this place, a good supply of English, American and Colonial newspapers. Useful reading tends to enlarge the mind, liberalize the ideas and make the reader more happy and contented.

We are glad to know that these happy results are in a fair way of being realized owing to the business energy and push of one of our mainland firms, who have, during the past year, increased the circulation of useful periodical literature throughout the mainland to double what it has been heretofore. We refer to the well known house of G. C. Clarkson & Co.

PUBLIC LIBRARY.—A meeting of those interested in the Public Library took place at the Hyack Hall, on Wednesday evening, 11th. Holbrook, Esq., in the Chair. The gentlemen who had kindly undertaken to solicit subscribers, reported encouraging progress. The Chairman and Messrs. Good and Clandet were appointed a Provisional Board for the purpose of organizing the institution upon an entirely new basis, and there is every prospect of its being opened in the course of a week or ten days. The meeting adjourned till Thursday next, when the election of a Board of Management will take place.

FROM VICTORIA.—The str. Otter, Captain Lewis, arrived from Victoria yesterday, with freight and passengers. The Governor had gone on a visit to the Cowichan settlement. The war ship Sparrowhawk had returned from a cruise round the island. Mr. C. W. Wallace came down by her. He reports very favorably respecting the Skidgate coal mine. The owners of the ship Rosalie, wrecked on Discovery Island, some months ago, have commenced an action against Captain Stamp, claiming \$20,000.

INFORMATION WANTED, respecting Eli Dibbell, who came to this colony from the neighborhood of Percy, Canada West, and was last heard of about two years ago at Clinton, B. C. Any information sent to the Rev. R. Jamieson, Nanaimo, or to Mr. John Robson, New Westminster, will be transmitted to an anxious wife and family.

Other newspapers published in this colony will confer a favor by inserting this notice.

OH! THE CRUEL WRETCH!—The *Colonist* evinces a disposition to throw "poor old Waddy" and his Bute Inlet bubble overboard, because Dr. Cheadle is out in the *Poll Mall Gazette* in favor of the Yale-Kamloops route, and because "there are other considerations behind which" must "sich" Waddy!

UNFAIR.—The *Victoria Colonist* is publishing garbled extracts from a despatch upon the condition of the colony in 1867, written by the Assistant Colonial Secretary, to the Colonial Office. Why doesn't our contemporary publish the despatch in its entirety?

ARRIVAL OF THE GOVERNOR.—His Excellency Governor Seymour, accompanied by the Hon. H. P. P. Crease and A. T. Bushby, Esq., arrived, in the steam yacht *Leviathan*, last evening. We are not aware whether His Excellency contemplates making a lengthened visit at present.

FROM YALE.—The str. Reliance, Capt. Irving, arrived from Yale yesterday. There is no later news of importance from the interior.

THE STEAMER OTTER towed a barque down the north-west coast, arriving at Stamp's mills, Burrard Inlet, on Sunday.

TELEGRAPHIC SUMMARY.

European dates are to the 10th, but are very meagre and by no means important. In the House of Commons, on the 9th, inquiries were made of the Government concerning the measures for the opening of the territory of British North America to settlement. Aubrey, Under-Secretary of the Colonial Department, explained that pending the negotiations with the Hudson Bay Co. no steps could be taken by the Government in that direction. The North German confederation propose to the Great powers of Europe and America, the adoption of an international guarantee of absolute security from the seizure of private property on the high seas in time of war. On the 10th the Ascot Derby was won by the Marquis of Hastings's colt Earl; Cap-a-pie second, Suffolk third. The Royal Hunt cup was won by Sutter, Casobly second, Master Willie third, 22 horses ran. Chief Justice Cockburn says that the charge delivered by Judge Blackburn to the Grand Jury which recently refused to bring in a bill of indictment against Governor Eyre, of Jamaica, is contrary to the opinion of the majority of the Court of Queen's Bench. Brussels advices of June 2d state that Leonard asserts that the opinion widely prevails in Paris that war will break out in Europe before the close of next Autumn. Bismarck urges the adoption by the nations of Europe, of American treaties, establishing a uniform international system for measurement of the tonnage and capacity of shipping. He proposes the English system as the best basis, but suggests that it be modified by the application of the metrical system. Prince Napoleon was at Vienna. He had a close consultation with Francis Joseph. The object is unknown. The Emperor of Russia has issued a ukase setting forth to free all persons of foreign birth now exiled to Siberia, and all natives of Russia and Poland sentenced to less than twenty years exile. An Athens' letter states that the Greek Government has received the Cretan Deputies, thus virtually recognizing Crete as part of the Greek nation, which will probably lead to a war between Turkey and Greece.

Advices from the Eastern States are to the 12th inst. The Senate had passed a Bill to admit North and South Carolina, Georgia and Alabama. The Prussian Government had made an effort to secure a naval station on the Caribbean sea, by purchasing the post of Simon, Costa Rica. Ward, the diplomatic agent of the Costa Rica Government, refused to negotiate, making pointed allusion to the Monroe doctrine. It was understood at Washington that the President had tendered the office of Secretary of the Treasury to W. S. Groesbeck, of Ohio. Judge Chase denies partisanship in the impeachment case, and says he neither expects nor desires to be a candidate for office again. Judge Chase has decided that all bonds, drafts, etc., drawn during the rebellion, in the rebel States, are illegal, and cannot be recovered at law! Corbett introduced a Bill in the Senate to authorize the establishment of customs ports of delivery on the Pacific coast of the United States. The present debt of the United States Government is \$2,510,245,888 67.

South American advices report yet low fever making fearful strides at Lima. One hundred and fifty to two hundred are dying daily. Commerce is paralyzed and all public places closed.

DIED. At Yale, on Tuesday, June 9th, Gilbert Wolfenden, only son of A. Barlow, Esq., aged 16 months.

At Burrard Inlet, on the 12th inst., Timothy Conkley, a native of Ireland, aged about 40 years.

COMMERCIAL FLUCK.—The removal of the Seat of Government appears in no way to have damped the enterprise or weakened the confidence of J. S. Clute. At least one might fairly come to this conclusion on seeing the large and varied stock of new goods which he received by last steamer, and which he is now opening up for sale, including the very latest styles, and the most tempting patterns yet brought to this market.

HOLLOWAY'S PILLS.—The Great Need—The blood is the life, and on its purity depends our health, if not our existence. These Pills thoroughly cleanse this vital fluid from all contaminations, and by that power strengthen and invigorate the whole system, healthily stimulate sluggish organs, repress overexcited action, and establish order of circulation and secretion throughout every part of the body. The balsamic nature of Holloway's Pills commands them to the favor of debilitated and nervous constitutions, which they soon resuscitate. They dislodge all obstructions, both in the bowels and elsewhere, and are, on that account, much sought after for promoting regularity of action in young females and delicate persons, who are naturally weak, or who from some cause have become so.

ANOTHER OPPORTUNITY.—Doctor F. Grady, whose professional reputation is already sufficiently established, has just returned from San Francisco, and may be consulted at the Colonial Hotel. He comes with all the latest improvements in Dentistry.

New Advertisements.

NOTICE.

THE Hon. J. J. Ross has been happy to meet his constituents of the Burrard Inlet settlement, at Messrs. Moody & Co's Mill at 8 o'clock, p.m., on Saturday the 13th inst., for the purpose of stating to them his reasons for the course he has taken in the past, and of explaining the measures which he proposes to advocate in the future. A Meeting of a similar character will be held at this City, on Wednesday evening, the 17th inst.

ALL OVER.

PLANTATION BITTERS.

Dyspepsia, with its symptoms, Headache, Heartburn, Fervent Lips, Bad Breath, Sallow Complexion, &c., can be cured by using PLANTATION BITTERS.

This is the most successful tonic of the age. Young, middle-aged and old, are delighted with its effects.

The first trial always has a marked good effect.

No change of diet is necessary. Eat all you wish, at the best and most nutritious food.

It is the greatest cure ever known for an overloaded and disordered stomach, which it relieves in a few moments.

We know that we have the best and most popular medicine in the world. We are not afraid to show what it is composed of.

PHYSICIANS ARE COMPELLED TO RECOMMEND IT.

CASIMIR BARK has been administered for over two hundred years, and was sold during the reign of Louis XVI., King of France, for the enormous price of its own weight in silver. It is remarkable for Dyspepsia, Fevers, Weakness, Constipation, &c.

CASIMIR BARK.—For Diarrhoea, Colic, and diseases of the stomach and bowels.

PARVINGS.—For inflammation of the Lungs and Pleural Affections.

CHAMOMILE FLOWERS.—For enfeebled digestion.

LAVERNE FLOWERS.—Aromatic, stimulant and tonic—highly invigorating in nervous debility.

YINSTRUMENT.—For scrofula, Rheumatism, &c.

APRIS.—An aromatic, carminative; creating flesh, muscle and milk; much used by mothers nursing.

Also clove-buds, orange, caraway, carduus, snake-root, &c.

Another wonderful ingredient of Spanish origin, imparting beauty to the complexion and brilliancy to the mind, is yet unknown to the commerce of the world, and we withhold its name for the present.

With this recipe before the community, the success of effects meeting them on all sides, the success of the BARK stands founded upon the rock of truth. Almost every family has some case of suffering which the PLANTATION BITTERS will alleviate and cure.

They are recommended by the highest medical authorities, and are warranted to produce an immediate beneficial effect. They are exceedingly agreeable, perfectly pure and harmless.

Notice.—Any person presenting to sell PLANTATION BITTERS in bulk or by the gallon is a swindler and impostor. It is put up only in our log cabin bottle. Beware of bottles redolent with imitation, deleterious to health, and which are already in prison. See that every bottle has our United States Stamp over the cork unimpaired, and our signature on steel plate side label. Sold by respectable dealers throughout the habitable globe.

P. H. Drake & Co., New York, Sole Proprietors.

Redington & Co., San Francisco, Agents for California and Nevada.

MEXICAN MUSTANG LINIMENT.

The merits of this Liniment are well known. Its effects are instantaneous, soothing, and wonderful. Cuts, bruises, sprains and swellings, are so common, and certain to occur in every family; that a bottle of this Liniment is the best investment that can be made.

It is more certain than the doctor—it saves time in sending for the doctor—it is cheaper than the doctor, and should never be dispensed with.

READ THE FOLLOWING.

"I take pleasure in recommending the Mexican Mustang Liniment as a valuable and indispensable article for Sprains, Sores, Scratches, or falls on horses. Our men have used it for Burns, Bruises, Sores, Rheumatism, &c. and all say it acts as a magic." J. W. HICKEY, Foreman for Amer's, Wells, Fargo & Harnden's Express.

"The sprain of my daughter's ankle, occasioned while skating last winter, was entirely cured in one week after she commenced using your celebrated Mustang Liniment." E. SEELY, Gloucester, Mass., Aug. 1, 1865.

Quick and sure it certainly is. All genuine is wrapped in steel plate engravings, bearing the signature of G. W. Westbrook, Chemist, and the PRIZES U. S. Stamp of Dr. J. H. & Co., over the top.

An effort has been made to counterfeit it with a cheap stone plate label. Look CAREFULLY.

Sold by all Druggists and Stores, @ 25 & 50c. and \$1.

LYON'S FLEA POWDER.

It is well known that Lyon's genuine Flea Powder perfectly destroys everything in the shape of fleas, ticks, bedbugs, roaches, &c.; that it is perfect, poison to the insect tribe, but entirely harmless to the human species and domestic animals.

Bedbugs, Roaches, Ants, etc., are in every house. This Powder is their natural death. It should be in every cupboard.

JOHN L. ROSE, Esq., Superintendent of the New York City Hospital, says "It is the only SURE article we have ever used."

NEW YORK HOTEL PROPRIETORS say: "We have used

LYON'S MAGNETIC POWDER

for exterminating insects and vermin, with entire satisfaction."

COLEMAN & STETSON, Astor House, S. T. COZZENS, American Hotel, ACKER & TREMADWELL, St. Nicholas Hotel, S. LELAND & CO., Metropolitan Hotel."

Testimony of this character might be added to any length. Wherever it is used it advertises itself.

The genuine has the signature of H. LYON, and the private stamp of DEMAS HARNES & Co. Anything else of this kind is an imitation or counterfeit. Any druggist will procure the genuine if you insist you will have no other.

Sold by all druggists and general stockholders in every town and mining camp on the Pacific Coast.

IN BANKRUPTCY.
WHEREAS a petition for adjudication of Bankruptcy, bearing date the 21st day of March, 1868, hath been duly filed against Thomas Roper, of Four Mile Prairie, British Columbia, out of business, formerly carrying on business at the 108 Mile House, British Columbia aforesaid, in partnership with William Roper, under the name and style of W. and T. Roper as Publicans and Farmers, and he, having been declared a Bankrupt, is required to surrender himself to the Hon. Matthew Baillie Begbie, one of Her Majesty's Commissioners of the Court of Bankruptcy, on the 31st day of March instant, and the 28th day of April next, respectively, at five o'clock in the afternoon, at the Court House, New Westminster, and there make a full discovery and disclosure of his estate and effects, and where the creditors are to come prepared to prove their debts and at the last sitting of the Bankruptcy is required to finish his examination.

All persons indebted to the said Bankrupt, or that have any of his effects are not to pay or deliver the same but to Charles Edward Pooley, the Official Assignee, whom the said Commissioner has appointed.

W. S. SEBRIGHT GREEN,
Solicitor for Bankrupt.

IN BANKRUPTCY.
In the Supreme Court of Civil Justice of British Columbia.

WHEREAS a petition for adjudication of Bankruptcy, bearing date the 3rd day of April, A. D. 1868, hath been duly filed against WILLIAM HENRY LADNER, formerly of French Creek, Big Bend, now of New Westminster, British Columbia, Dealer and Chapman, and he having been declared a Bankrupt, is required to surrender himself to the Hon. Matthew Baillie Begbie, one of Her Majesty's Commissioners of the Court of Bankruptcy, on Monday, the 13th day of April, and on Monday, the 4th day of May next, respectively, at 1 o'clock p. m., at the Court House, New Westminster, and make a full discovery and disclosure of his estate and effects, when and where the Creditors are to come prepared to prove their debts, and at the last sitting of the Bankruptcy is required to finish his examination.

All persons indebted to the said Bankrupt, or that have any of his effects are not to pay or deliver the same but to Charles Edward Pooley, the Official Assignee, whom the said Commissioner has appointed.

CHAS. E. POOLEY,
Official Assignee.
New Westminster, 3d April, 1868. ap8tc

CURE IS AT HAND!
HOLLOWAY'S OINTMENT
Scorbutic Eruptions, as Sore Heads and Scrofulous Swellings.
If this powerful Ointment be well rubbed into the parts affected, all skin diseases will be speedily overcome. It acts not by repression, but by repulsion. It enters the system as salt enters meat, and operates not locally only, but constitutionally purifying the whole system, neutralizing all depraved humors, and effecting a radical and complete cure. The Pills should be taken as an auxiliary to the Ointment, as they are so prepared as to act in unison with it, facilitating and confirming the conquest of the disease.

Diphtheria, Ulcerated Sore Throat and Quinsy.
The above complaints have for twenty years been treated with Holloway's Ointment and Pills with complete success. The cure has been so remarkable, speedy and unimpaired, that these often fatal diseases are now easily cured by these medicines, than even the common sore throat, if taken in time.

The Kidneys, Stone and Gravel.
In these complaints, the Ointment almost acts like a charm, propelling the very effectually rubbed over the regions of the kidneys, which it will penetrate and give almost immediate relief, while the Pills should be taken according to the printed directions, when the most extraordinary cures may be effected by this means.

Had Legs, Bad Breasts, Scrofulous Sores, and Glandular Swellings.
In such cases the Ointment operates surely and with a rapidity that resembles magic. It should be rubbed into the parts affected, after they have been fomented with lukewarm water. The purifying and curative powers of this marvelous unguent have never failed. Any old sore, wound or ulcer always yields to its influence, and in cases of bad breasts, or milk fever, its action is wonderful. Glandular swellings may soon be reduced by following the printed directions.

The Action of the Heart, Dropsy.
The list named disease is commonly preceded by irregular action of the heart, and difficult respiration; which symptoms are always severe, and ever go from bad to worse, unless proper means of cure are resorted to. In Holloway's unrivalled Ointment and Pills the dropped patient will ever find success; the present relief derived from the use of these remedies is marvellously quick, and perseverance in the application of this famous Ointment, invariably results in a cure. They act with such energy on the circulation and absorbent system, that the dropped fluid vanishes, and the sufferer finds all the oppressive symptoms daily decline, till natural health returns.

Gout and Rheumatism.
May be cured with the greatest certainty if large quantities of the Ointment be well worked into the complaining parts, and this perseveringly done for some time. It is no use to smear it on the skin only, it must be got into the system. Take as many Pills nightly as will act two or three times during the 24 hours; eschew the use of coffee, and all stimulants. When these complaints are having the system, the influence of the complaint frequently seems to increase.

Indisposition of Youth.
Sore, ulcers and swellings can with certainty be cured if this Ointment be thoroughly rubbed all round the complaining parts twice or three a day. Keeping them covered with linen rag spread with the same.
The Pills must be taken according to the printed directions. The blood being in an impure state, perseverance is necessary. From humane motives letters of advice will be forwarded gratuitously. To save carrying the Pills should be obtained in the neighborhood of the sufferer, and not from Holloway's Establishment.

Doth the Ointment and Pills should be used in the following cases:—
Bad Legs, Chapped hands, Scalds,
Bad Breasts, Contracted and Sore Nipples,
Dumplings, Stiff joints, Sore Throat,
Blisters, Elephantiasis, Skin-diseases,
Bite of Mosquitoes, Erysipelas, Scoury,
and Glandular Swellings, Scurvy,
Cancer, Glandular Swellings, Scurvy,
Chilblains, Rheumatism, Yaws.

Sold at the establishment of Professor Holloway, 224, Strand, near Temple Bar, London; and by all respectable Druggists and Dealers in Medicines throughout the civilized world, at the following prices:—1s. 1/2d., 2s., 3s., 4s., 6s., 11s., 22s.
*There is a considerable saving by taking the larger sizes.

SEEDS! SEEDS! SEEDS!
These Pills have been played by the common sense, mankind at the head of all remedies for removing poisons from the blood, and cleansing all the organs of the body. They have saved thousands who were afflicted by eruptions, pimples, blotches, pustules, ulcers, sores, and all diseases of the skin.
From Mrs. Jane E. Rice, a well-known and much-esteemed lady of Danville, Va. May Co. N. Y.
"I only do my duty to you and the public, when I add my testimony to that you publish of the medicinal virtues of your Sarsaparilla. My daughter, aged ten, had an afflicting humor in her ears, eyes, and hair for years, which we were unable to cure until we tried your Sarsaparilla. She has been well for some months."

From Mrs. Jane E. Rice, a well-known and much-esteemed lady of Danville, Va. May Co. N. Y.
"My daughter has suffered for years with a scrofulous eruption, which was very troublesome. Nothing afforded any relief until we tried your Sarsaparilla, which soon completely cured her."

From Charles P. Gage, Esq., of the widely-known Gage, Murray & Co., manufacturers of enamelled ware.
"I had for several years a very troublesome humor in my face, which grew constantly worse until I dedicated my features and became an intolerable affliction. I tried almost every thing a man could do of both advice and medicine, but without any relief, until I took your Sarsaparilla. It immediately made my face worse, as you told me it might for a time, but in a few weeks the new skin began to form under the blotches, and continued until my face is as smooth as any body's, and I am without any symptoms of the disease that I know of. I enjoy perfect health, and without doubt owe it to your Sarsaparilla."

Erysipelas—General Debility—Purify the Blood.
From Dr. Robt. Smith, Houston St., New York.
"DR. AYER. I seldom fail to remove Erysipelas and Scrofulous Sores by the persevering use of your Sarsaparilla, and I have just now cured a case of Malignant Erysipelas with it. No alternative I possess equals the Sarsaparilla you have supplied to the profession as well as to the people."

From J. E. Johnston, Esq., Wickham, Ohio.
"For twelve years, I had the yellow Erysipelas on my right arm, during which time I tried all the celebrated physicians I could reach, and took hundreds of dollars worth of medicines. The ulcers were so bad that the cords became visible, and the doctors decided that my arm must be amputated. I began taking your Sarsaparilla. Took two bottles, and the cords became invisible, and the ulcers healed. I am now as well and sound as any body. Being in a public place, my case is known to every body in this community, and excites the wonder of all."

New Advertisements.
Ayer's SARSAPARILLA.
THE WORLD'S GREAT REMEDY FOR Scrofula and Scrofulous Diseases.
From Emory Rice, a well-known merchant of Portland, Maine.
"I have sold large quantities of your SARSAPARILLA, but never yet a bottle which failed of the desired effect and full satisfaction to those who took it. As fast as our people try it, they agree there has been no medicine like it before in our community."

Eruptions, Pimples, Blotches, Pustules, Ulcers, Sores, and all Diseases of the Skin.
From Mrs. Jane E. Rice, a well-known and much-esteemed lady of Danville, Va. May Co. N. Y.

Took two bottles, and the cords became invisible, and the ulcers healed. I am now as well and sound as any body. Being in a public place, my case is known to every body in this community, and excites the wonder of all."

From Hon. Henry Murray, M. P., of Newcastle, C. W., a leading member of the Canadian Parliament.
"I have used your SARSAPARILLA in my family, for general debility, and for a variety of other ailments, with very beneficial results, and feel confident in commending it to the afflicted."

St. Anthony's Fire, Rose, Salt Rheum, Scald Head, Sore Eyes.
From Harvey Silder, Esq., the able editor of the "Tribune" Democrat, Pennsylvania.
"Our only child, about three years of age, was attacked by Erysipelas. His forehead, neck, and arms were covered with a loathsome and virulent sore, which covered his face, and actually blinded his eyes for some days. A skilful physician applied nitrate of silver and other remedies, without any apparent effect. For fifteen days we guarded his hands, lest with them he should scratch the festering and corrupt wound which covered his whole face. Having tried every thing else we had any hope from, we began giving your Sarsaparilla, and applying the iodine of potash lotion, as you have recommended. The sore began to heal when we had given the first bottle, and we well when we had finished the second. The child's eyes, which had come out, grew again, and he is now as healthy and full as any other. The whole neighborhood predicted that the child must die."

Syphilis and Mercurial Disease.
From Dr. Hiram Clark, of St. Louis, Missouri.
"I find your SARSAPARILLA a most efficient remedy for the secondary symptoms of Syphilis and for syphilis disease that any other we possess. The profession are indebted to you for some of the best medicines we have."

From A. J. French, M. D., an eminent physician of Lawrence, Mass., who is a prominent member of the Legislature of Massachusetts.
"DR. AYER. My dear Sir: I have found your SARSAPARILLA an excellent remedy for Syphilis, both of the primary and secondary type, and effectual in many cases that were too obstinate to yield to other remedies. I do not know what we can employ with more certainty of success, where a powerful alternative is required."

Mr. Chas. S. Van Lier, of New Brunswick, N. J., had dreadful ulcers on his legs, caused by the abuse of mercury or mercurial disease, which grew more and more aggravated for years, in spite of every remedy or treatment that could be applied, until the persevering use of AYER'S SARSAPARILLA relieved him. Few cases can be found more inveterate and distressing than this, and it took several dozen bottles to cure him.

Leucorrhoea, Whites, Female Weakness, are generally produced by internal Scrofulous irritation, and are very often cured by the alternative effect of this SARSAPARILLA. Some cases require, however, in aid of the SARSAPARILLA, the skilful application of local remedies.

A lady, unwilling to allow the publication of her name, writes:
"My daughter and myself have been cured of a very debilitating Leucorrhoea of long standing, by two bottles of your SARSAPARILLA."

Rheumatism, Gout, Liver Complaint, Dyspepsia, Heart Disease, Neuralgia, when caused by Syphilis in the system, are rapidly cured by this EXT. SARSAPARILLA.

AYER'S CATHARTIC PILLS possess so many advantages over the other purgatives in the market, and the superior virtues are so universally known, that we need not do more than to assure the public their quality is maintained equal to the best it ever has been, and that they may be depended on to do all that they have ever done.

Prepared by J. C. AYER, M. D., & Co., Lowell, Mass., and sold by
MOORE & Co., Agents, Victoria, V. I.
Sold by H. W. SMITH and DA JONES, New Westminster, and by every dealer in the Colony.
